

Quantedge Capital Summer 2023 Internship Software Engineering Singapore

Quantedge manages USD 3 billion and has a 15-year track record of outstanding performance. We have 70 employees located in Singapore and New York City. Our organization is flat, non-bureaucratic, and results-oriented with significant opportunities for advancement for driven team players. We invest heavily in the professional development of our employees, maintain a sustainable work-life balance and offer generous compensation and benefits.

We seek exceptional individuals to join our Summer 2023 Internship Program in Software Engineering. This internship is for students who have strong analytical and software development skills. You will be designing and implementing complex software systems that power a world class hedge fund as part of a high caliber team of software and investment professionals. Excellent interns will be offered permanent positions post-graduation.

What We're Looking For

- A major in a technical discipline including Mathematics, Physics, Economics, Finance, Computer Science, Engineering, Sciences or a related field
- Strong interest in technology and solving challenging problems with first rate programming and engineering skills
- Interest in working with Python and relational databases / SQL which comprise our tech stack, but extensive prior experience is not necessary
- Team player, attention to detail, self-directed learner, strong work ethic
- Expected graduation date up to and including mid-2024
- Willing to work in Singapore post-graduation on a permanent basis

Location

Singapore
